INVITATION TO THE INTERNATIONAL SEMINAR ON AFGHANISTAN

Under the Auspices of Deputy Prime Minister and Minister of Foreign and European Affairs Miroslav Lajčák

7 June 2013 Bratislava

FUTURE SECURITY IN AFGHANISTAN

Security in Afghanistan has been the main concern of the international community ever since the nine-eleven events in 2001. Large investments have been made to build up viable Afghan security forces as part of reforms of the overall security sector. With the ISAF mission soon coming to an end it is of utmost importance that the gains made, will not be lost.

What does security mean in a broader and more long-term perspective? How can the concept of Human Security be understood in the Afghan context? What is the role of civil society and women in these endeavours? What can be learned from the recent experience of Slovakia in modern state building? And is the dialogue with Taliban at all something to be considered?
