Istanbul Principles Checklist

	What is my organization already doing to implement this principle?	What is civil society in my country or region already doing collectively to implement this principle?	How can this existing work be supported/ strengthened?	What else can/must we do to more effectively put this principle into practice in my organization? As a sector?	Do the other development stakeholders in our country/local context facilitate or hinder realization of this principle? How could we influence these stakeholders to achieve better results?	What other stakeholders in my or region could we work with in achieving greater impact with this principle?
Principle 1: Respect and Promote Human Rights and Social Justice						
Principle 2: Embody gender equality and equity while promoting women and girls' rights						
Principle 3: Focus on people's empowerment, democratic ownership and participation						
Principle 4: Promote environmental sustainability						
Principle 5: Practice transparency and accountability						
Principle 6: Pursue equitable partnerships and solidarity						
Principle 7: Create and share knowledge and commit to mutual learning						
Principle 8: Commit to realizing positive sustainable change
